MIST SOLUTIONS

Assisted staff members in completing operational tasks, contributing to a 15–20% improvement in daily workflow efficiency.

- Designed and built responsive, user-friendly web interfaces for multiple client projects.
- Developed and optimized interactive UI components using **HTML, CSS, JavaScript, and ReactJS**, ensuring seamless performance across devices.

PROJECT

Digital Locker System

- Engineered a secure digital locker system that centralized **100% of user documents**, increasing document accessibility efficiency by 40% through streamlined storage and retrieval workflows.

MigoHealth

- Built an application for the **Kerala State Government** to track and manage data of **migrant workers** across the state.
- Developed a responsive platform collecting worker details through a full-page, user-friendly digital form to support government monitoring.

FarmNect

- Developed an agricultural support application enabling **farmers to directly sell produce to buyers without intermediaries**, ensuring fair pricing.
- Engineered a digital platform connecting farmers with buyers, streamlining transactions and empowering agricultural producers with real-time market information.

Learning Platform Management for rural students

- Designed a comprehensive e-learning platform to **bridge the educational gap for rural students**, providing structured access to resources, video lectures, and assessments.
- Implemented a **lightweight, low-bandwidth-friendly interface** ensuring smooth performance in areas with limited internet connectivity.
